A Reverse Mortgage is an innovative financial tool for homeowners ages 62+. Through a Reverse Mortgage, you can take advantage of your home equity by:

1. Taking out a lump sum of cash
2. Receiving consistent monthly payments
3. Opening a line of credit
4. Home equity conversion mortgage (HECM) for purchase of a new home
5. Or any combo of the above

In addition to receiving money through a Reverse Mortgage, you won’t be required to make monthly payments. You will, however, be responsible for continuing payments on your homeowners insurance, maintenance, property taxes & any other fees like HOA dues, etc. The repayment of the loan will be deferred until the homeowner dies, sells, or moves out.
