UNLOCK YOUR RETIREMENT WITH A REVERSE MORTGAGE

By: CareyAnn Cyr | February 18, 2026

For many homeowners, retirement brings exciting new chapters—more time with family, travel, hobbies, and the freedom to enjoy life on your terms. But it can also bring financial questions:

How can I make my savings last?
How can I stay in the home I love?
What options do I have to create more monthly cash flow?

That's where a reverse mortgage can make all the difference.

At CareyAnn & MyMortgageTeam, powered by CMG Financial, we believe financial freedom starts at home. Your home is more than just a place to live—it's one of your greatest assets. A reverse mortgage allows you to tap into that asset and put your equity to work for you.

What Is a Reverse Mortgage?

A reverse mortgage is a specialized loan program designed for homeowners age 62 and older. It allows you to convert a portion of your home's equity into usable funds—without having to sell your home or take on a monthly mortgage payment.

In simple terms:

- You continue to live in your home
- You keep ownership of your home
- You receive money from the equity you've built
- And you are not required to make monthly mortgage payments

It's a powerful financial tool designed to help you live more comfortably in retirement.

The Key Benefits of a Reverse Mortgage

A reverse mortgage can help you:

- ✓ Create tax-free income to supplement Social Security or retirement savings
- ✓ Eliminate your monthly mortgage payment
- ✓ Pay off debt or medical expenses
- ✓ Fund home improvements
- ✓ Purchase a new home without taking on a monthly mortgage payment
- ✓ Stay in the home you love for years to come

Whether you are looking to refinance your current home or purchase a new one, a reverse mortgage can be a smart, strategic solution.

More Than Just a Loan – It's a Retirement Strategy

Many people assume reverse mortgages are a last resort. The truth? They are becoming a proactive planning tool used by retirees across the country.

Today's reverse mortgage programs are safe, highly regulated, and designed to give seniors more control over their financial future.

With the right guidance, a reverse mortgage can help you:

- Protect your savings
- Increase monthly cash flow
- Reduce financial stress
- Enjoy retirement with greater peace of mind
